

At What Age Will You Retire?

That depends. Suppose we say at sixty. All right—how much will you have saved by then?

No! You must guess again. Only three men in a hundred save enough to retire comfortably at sixty.

And about two out of the three do it because they've put part of each year's earnings into Endowment insurance, such as provided by The Imperial Life.

It's a phase of life insurance that will interest you, even if you never thought of it before.

Facts About Collingwood

COLLINGWOOD IS SITUATED ON THE ALLANDALE-MEAFORD
BRANCH OF THE CANADIAN NATIONAL RAILWAYS,
AND IS ALSO THE TERMINUS OF THE BEETON BRANCH.

Collingwood has one of the best harbours on the Georgian Bay, having
20 feet of water at all times of the year, and is also one of the best pro-
tected in the chain of lakes.

It has one of the largest steel shipbuilding yards and dry docks in
Canada, some of the largest vessels that ply the Great Lakes having been
built here.

Along the waterfront there are several splendid locations for factories
to be built on, and, to bona fide industries, the town offers liberal induc-
ements.

The town owns its own water works, electric light, sewerage; and
Hydro Electric power, generated at Eugenia Falls, can be had very cheaply
for manufacturing.

Collingwood is an ideal town to live in, having many advantages over
the larger cities. Most of the citizens own their houses and take pride in
keeping their lawns and gardens in good shape.

Collingwood has a free public library to which is attached a museum
that contains a great number of historical relics. There are also two
parks, two skating and a curling rink, Government Fish Hatchery, Govern-
ment Rifle Ranges, a fine Post Office, and is also well supplied with schools
and churches of all denominations.

AS A SUMMER RESORT COLLINGWOOD AND DISTRICT IS
UNSURPASSED

And good hotels with reasonable rates are available.

Within a short distance from the town is

WASAGA BEACH

which is unequalled by any on this continent, and where you can drive for
seven miles along the water's edge with absolute safety. The location
is ideal for the summer home; pure spring water is available practically
any place on the Beach at a depth of 100 feet, which is of paramount
importance in a summer home. Bathing and boating is quite safe, and
good fishing is available. There is splendid Hotel accommodation at the
Beach, and for the family man furnished cottages may be had.
