

Week Nine Be Kind

Have you explored the George Christie Nature Trails?

This week for our Be Kind theme we thought we would add some adventure. Take a hike or mountain bike through the trail system.

You can reach the trails by taking the Georgian Trail or 11th Line. My favorite loop:

- Start at the end of the 11th Line
- Follow the 11th Line trail to Colberry Trail
- Take Colberry Trail to the Turkey Trail
- Follow the Turkey Trail as it merges and turns into the Deer Trail
- Return back to the start by following the 11th Line

The Nature Trails are a great spot birds and insects in different environments (wetlands, grasslands, forest). How many different types of insects or birds did you see?

Share a picture of your cycling adventure with us!
