

Become a Hero

The world needs superheroes like you to practice physical distancing! Show the world your superpowers with this hero-inspired craft. This craft requires lots of cutting, so please use safety scissors or ask an adult for help.

What you need:

- Construction paper (black, yellow, and blue)
- Scissors
- Glue stick
- Camera and printer
- White pencil crayons

How to make your superhero scene:

1. Get someone to take a photo of you in your best flying pose.
2. Print a 4" x 6" copy of the photo.
3. Cut out various shapes and sizes of black construction paper for your skyline.
4. Glue black pieces along one edge of your blue construction paper.
5. Cut yellow construction paper into small squares then glue to black pieces. These will be the windows in your skyline.
6. Cut yourself out of your photo and glue above the skyline.
7. Use white pencil crayon to draw moon and stars and to outline the buildings.

Tip: You can add a cape to your superhero using coloured construction paper.

We want to see your work! Send a picture of your completed craft to museum@collingwood.ca or tag us on [Facebook](#).
