

Boxcar Drive-In

Step 1

Plan and design your boxcar. Draw a picture of what you want it to look like. What materials do you want to use?

Step 2

Prepare your cardboard box for decorating. Tape together the bottom of the box and get an adult to help cut off any extra cardboard flaps.

Step 3

Start decorating! Use the paper plate as a template to draw four wheels, make headlights using paint or yellow construction paper, create a licence plate, and personalize with colours and designs.

Step 4

Decorate the popcorn box template (see the popcorn box instruction sheet). Choose a movie to watch, cuddle up in your boxcar and enjoy the show!
